SUMMARY

Computer Science undergraduate and MERN Stack Developer currently completing a three-month internship at Infotact Solutions. Experienced in building full-stack web applications with React.js, Node.js, Express.js, MongoDB, and TypeScript. Comfortable with REST APIs, secure authentication, responsive interfaces, Docker, and Git-based development.

EDUCATION

Centurion University of Technology and Management (CUTM), Bhubaneswar

Bachelor of Engineering in Computer Science — CGPA: 9.58 / 10

2023 – 2027

Bhubaneswar, Odisha

EXPERIENCE

MERN Stack Developer Intern at Infotact Solutions

May 2026 – Present

Remote (Three-month Internship)

- Working on two full-stack products: an Omnichannel POS and Inventory Management System and a Telemedicine EHR Platform.
- Developed frontend and backend modules with React.js, Redux Toolkit, Node.js, Express.js, MongoDB, and TypeScript.
- Implemented secure login, role-based access, REST APIs, form validation, real-time updates, payment flows, and responsive pages.
- Used Docker and Postman for development and testing, and managed changes through GitHub feature branches and pull requests.

PROJECTS

Omnichannel POS and Inventory Management System | TypeScript, React.js, Node.js, May 2026 – Jun 2026
Express.js, MongoDB, Redis, Docker | Live Demo

- Built a multi-role retail system for product catalog, inventory, customers, orders, and point-of-sale workflows.
- Implemented authentication, role-based access, product and inventory APIs, MongoDB models, Redis integration, and responsive React pages.
- Containerized local development with Docker and deployed the frontend on Vercel and backend on Render using MongoDB Atlas and Redis Cloud.

Telemedicine EHR Platform | TypeScript, React.js, Mantine UI, Node.js, Express.js, Jun 2026 – Present
MongoDB, LiveKit

- Building a role-based platform for patients, doctors, and clinic administrators with profiles, doctor availability, appointments, consultations, prescriptions, and audit logs.
- Implemented HttpOnly cookie authentication, email verification, payment-first booking with Razorpay, and real-time notifications with Socket.IO.
- Added LiveKit video consultations and consent-based recording with verified webhooks and private S3-compatible storage.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, C++, HTML5, CSS3
Web Technologies / Frameworks:	React.js, Redux Toolkit, Mantine UI, Tailwind CSS, Node.js, Express.js, REST APIs, Socket.IO
Databases / Caching:	MongoDB, Mongoose, MongoDB Atlas, Redis
Developer Tools / Platforms:	Git, GitHub, Docker, Postman, Vite, npm, ESLint, Prettier, Husky, Vercel, Render
Integrations:	LiveKit, Razorpay, Brevo, ImageKit, S3-Compatible Object Storage

EXTRACURRICULAR ACTIVITIES

- Yoga and Holistic Health:** Practice meditation and advanced yoga regularly to maintain physical fitness, flexibility, and focus.
- Share simple yoga routines with family and friends; suggested gentle exercises to my father for cervical discomfort, which helped improve his comfort and movement.
